

Final Announcement

BBS Fall Conference 2011 Friday, September 16, 2011

*Current Topics in Pharmaceutical Statistics:
Dose Finding and Multiregional Trials*

Hörsaal 6, Markgräflerhof, Zwischengeschoß,
Universitätsspital Basel, Hebelstr. 10, 4031 Basel

08:45 – 9:00 Welcome and Announcements

Michael Branson

9:00 – 12:00 Morning session

Current Topics in Dose Finding

Marc Vandemeulebroecke

09:00 – 10:00 Andy Grieve (Aptive Solutions)

Dose Selection in Drug Development: What Can Go Wrong? Can we put it Right?

10:00 – 10:30 Didier Renard (Novartis)

Use of modeling & simulation to support design and analysis of a new dose and regimen finding study

10:30 – 11:00 Coffee Break

11:00 – 11:30 Björn Bornkamp (Novartis)

On the efficiency of adaptive dose-finding designs

11:30 – 12:00 Georg Gutjahr (University of Bremen)

Powerful Modification of Step Down Procedures for Dose Finding

12:00 – 13:30 Lunch break

13:30 – 17:00 Afternoon session

Current Topics in Multiregional Trials

Frank Bretz

13:30 – 14:15 James Hung (FDA)

Planning and Analyzing Multi-regional Clinical Trials: A Regulatory Perspective.

14:15 – 15:00 Philip Hougaard (Lundbeck)

Global drug development strategies

15:00 – 15:30 Coffee Break

15:30 – 16:15 Jorgen Seldrup (Quintiles)

Designing clinical trials in a multiregional regulatory environment

16:15 – 17:00 Kevin Carroll (AstraZeneca)

Consistency of treatment effect across regions in a multi-regional trial: reasonable goal or unrealistic requirement?

17:00 Concluding remarks

Michael Branson
